Dashed colored lines = hand-offs from a site page/form to an outside service (each color = one destination). They run through the gutters and this channel so they never cross a box.

LAP SWIM JOURNEY TODAY
2 logins, 1 manual email: the core problem v2 should solve with one member login + access tiers

1. **Log in to MT** — */login-form*
2. **Sign 2026 Lap Swim Waiver** — *MT form*
3. **Get SignUpGenius invite** — *email*
4. **Create / use a SEPARATE SignUpGenius login** ! — *book lane / time*
5. **Email VP for gate code** — *manual*
6. **Swim (gate code works)** — *lap swim*

Steps 1–2 happen in Membership Toolkit; steps 3–5 happen outside the site (dashed). Nothing links the signed waiver to the SignUpGenius account or the gate code.

! GAPS TO FIX IN V2
1. Lap swim waiver (MT) and SignUpGenius are separate logins
2. No event RSVP / sign-ups for socials
3. Volunteer shifts not tracked on site (MT hours module unused)
4. Empty / placeholder pages (Programs, About Us 'coming soon')
5. Broken /events link (404) on public Social page
6. Board email link mismatches (placeholder, text ≠ link)
7. No newsletter archive
8. Bylaws & Handbook live on Google Docs
